

Bush Fire Preparation Map

Pindimar

WORKS PROGRAM

Strategy	Action	Map Ref.	Responsible Agency	Supporting Agency	Target Year
Property Planning	Implement State Water Supply Program (SWP)		NSWRF	FINSW/LGA	2017 Ongoing
	Develop pre-incident plans for local residential assets		NSWRF	FINSW	Ongoing
	Develop program to assist property owners to increase preparation of their properties prior to BFDP		NSWRF	LGA / FINSW	2017 Ongoing
	Implement & update program to assist property owners to improve property preparedness		NSWRF	LGA / FINSW	2017 Ongoing
Hazard Reduction	Inspect APZ to RFS brigade station / community hall / Korea Street & maintain as necessary	A	LGA	NSWRF	2017-2021
	Inspect APZ to residential assets in Korea Street & maintain as necessary	B	LGA	NSWRF	2017-2021
	Inspect APZ to residential assets in Korea Street & maintain as necessary	C	LGA	NSWRF	2017-2021
Hazard Reduction	Inspect APZ & where it is identified that 10% of over all fuel hazard exceeds high, conduct bushy using insect, fuel management practices		LGA	NSWRF	2017 Ongoing
	Realist Fire in Fire Exclusion Zones (SEPP 14)		NSWRF	Lead Manager	2017-2021
	Inspect Fire Trails		NSWRF	Lead Manager	2017 Ongoing
Preparedness	Develop Fire Access Plan		LGA	NSWRF	2017 Ongoing
	Develop & implement maintenance program for Fire Trails & Fire Access Trails		LGA	NSWRF	2017 Ongoing
	Manage use of fire in the environment through Fire Permits, Hazard Reduction Certificates & Camp Fire restrictions		NSWRF	LGA	2017-2021
Ignition Management	Realist access to Fire trails by installing lock gates / bollards		LGA	NSWRF	2017-2021
	Promote Community Protection Plan		NSWRF	LGA	2017-2021
	Develop & deliver program for engagement aimed at the target increase in population during holiday periods		NSWRF	LGA / FINSW	2017 Ongoing
Community Education	Deliver a Firewise program for rural families		NSWRF	LGA	2017 Ongoing
	Conduct street & community meetings to educate and assist residents with the development of bush fire survival plans		NSWRF	FINSW	2017 Ongoing
	Deliver program to encourage property owners to increase preparation of properties prior to BFDP		NSWRF	LGA / FINSW	2017-2021

Zone	Purpose	Suppression Objectives	Zone Characteristics
Asset Protection Zone 	To protect human life, property and highly valued public assets and values.	To enable the safe use of Direct Attack suppression strategies within the zone. To minimise bush fire impacts on undefendable assets.	As per RFS document Standards for Asset Protection Zones.
Strategic Fire Advantage Zone 	To provide strategic areas of fire protection advantage which will reduce the speed and intensity of bush fires, and reduce the potential for spot fire development. To aid containment of wildfires to existing management boundaries.	To improve the likelihood and safe use of: Parallel Attack suppression strategies within the zone. and/or Indirect Attack (back burning) in high to very high fire weather conditions within the zone. To reduce the likelihood of Crown fire development within the zone. and/or Spot fire ignition potential from the zone.	Zone width related to suppression objectives and dependant upon: - Topography - Aspect - Spotting propensity - Location of adjacent firebreaks - Mosaic pattern of treatment - Assess Overall Fuel Hazard (OFH) once vegetation communities reach minimum fire thresholds within this plan. Management practices should aim to achieve mosaic fuel reduction patterns so that the majority of the SFAZ has an OFH of less than high.
Resident Preparation Zone 	To identify that residents / property owners have a vital role to play in bush fire risk management and that they are responsible for their own property preparedness.	To increase the preparedness of residents for bush fire and ensure that vegetation in close proximity to residential assets are adequately maintained. To provide a defensible space for residents' fire fighters and complement hazard reduction works carried out within Asset Protection Zones / Strategic Fire Advantage Zones.	Residents / property owners should strive to achieve a Fire-Safe property as outlined in the illustration above. Concerns regarding the bush fire safety of neighbouring properties should be raised with the NSW Rural Fire Service.

1 grid square = 1 km² Scale: 1:
BFMC Approved: 21/06/2017

WARNING INFORMATION

- This map has been prepared by the NSW Rural Fire Service ("The Service") using data supplied to it by other agencies and entities. See the "Data Dictionary" for further information about the sources of this data.
- The Service has not verified or checked the data used to prepare this map. The map may contain errors and omissions. The Service has not made any attempt to ground truth the map.
- There will be a margin of error in relation to the location of features recorded on the map. The Service is unable to specify the extent or magnitude of that margin of error.
- Significant changes may have occurred:
 - In the time between which the data was originally collected and the map produced; and
 - Since the map was produced.
- Users must, wherever possible, ground truth the map before relying on it or the accuracy of the map or the information recorded on the map for any purpose.
- The Service accepts no responsibility for any injury loss or damage arising from the use of this map or any errors or omissions in the information recorded on the map.

**FIRE HAS A PLAN
DO YOU?**
